

	INFLUENCE	PARTICIPATE	DELIVER
A	PLACE - BUILT ENVIRONMENT		
A1	Physically improve town centre especially High St Existing		
A2	Reduce number of cars parked on pavements		
A3			Green the urban environment
A4	Lobby BT about the exchange building – Remove? Refurbish? Re-purpose?		
A5		Improve Connaught and Pencester Parks	
A6	Pedestrian safety improvements separate from cyclists and traffic – can better and separate provision be made mobility scooters as often dangerous or difficult on pavements		
A7	Relocate bus station to York Street		
A9		Repurpose Pencester Pavilion	
A10			To fully restore the Jubilee Crown including galvanising to prolong its life, and find a suitable place ie Pencester Gardens for it to be placed .
A11	DTC to send a letter to Port of Dover about asking if they have plans to put solar PV on their buildings and to install wind turbines on the harbour walls like the ports of Boulogne + Liverpool ;		

A12	DTC to send letter to Eurotunnel who manage Samphire Hoe about wind turbines on their SH breakwaters		
A13	DTC to send letter to Network Rail about Solar PV on Dover Priory Station buildings.		
A14	Invite Kent Community Energy to speak to Council about how they could encourage community owned renewable energy project on Business and larger (public) buildings in Dover; would KCC energy team or KCE provide Council with a map of potential (community owned) renewable energy generation, a scoping exercise. (both People Community / + Built environment issue +		
A15	DDC has a small battery storage of solar energy trial going in Temple Ewell, find out if there potential for this on any DTC buildings*		
A16	DTC to actively encourage improved energy performance of among homeowners in Dover town wards through provision of information on DTC website and leaflets (example of Walmer PC leaflets)		
A17			Planning Committee of Dover TC and Dover Neighbourhood Plan to fully acknowledge the climate and environmental emergency with firm recommendations for carbon neutrality, renewable energy and energy efficient measures made as standard; Any advice to DDC on planning permission to refer to such measures. <i>(see B 1 + 2 below on need for independent evidence)</i>
A18			DTC to commit to 100% clean energy being supplied from a company that is investing in renewable energy (like Ecotricity or Good Energy) rather than one that is just trading in it. And bring this to the attention of any leaseholders. *

A19			DTC to seek a 2020 commercial Energy Performance Certificate for the Town Council Offices*
A20			DTC to monitor energy use within all its buildings by electricity monitor or smart meter. *
A21			DTC to review and improve energy performance improvement measures within the Town Council offices each year (as technology is continuously improving)
A22			DTC to use water butt(s) for rainwater harvesting from gutters to be used for Town council offices' plant displays
* Denotes Dover Town Council offices and all buildings that DoverTC owns the freehold of, even if such buildings are rented out to leaseholders			
B PLACE - NATURAL ENVIRONMENT			
B1		River Dour access improvements	
B2			Wildlife awareness projects for children
B3			Foraging sessions
B4		Wildlife corridors	
B5	DTC to commit to supporting and publicising Walk to Work Day on April 2021 and the Big Pedal Challenge for schools April / May202		
B6		Identify 'mini green spaces' suitable for planting 2 or 3 native / fruit trees ; and larger areas for example either side of Dover library + elsewhere ; to fund materials for such planting; to enquire if community group (e.g. Transition Dover) or residents' association want to do the planting.	

B7		DDC new Local Plan : the consultation with town / parish councils. To point out to DDC Planning, Regeneration and Development dept then need to protect (and exclude from the Land Allocation) all of the Kent Downs Area of Outstanding Natural Beauty surrounding Dover (at Farthingloe and near Aycliffe and else-where)	
B8		Enhance the area west of East Cliff, inland from the A20 and the Premier Inn which looks scruffy, so that it becomes a naturally beautiful area to impress all visitors to Dover arriving at Eastern Docks or driving past. Speak with the land-owners to explore all possibilities for improvement by April 2021.	
B9		Speak to residents north of 299 London Road (Buckland Terrace) to ask about having edible decorative slim planters along the railings (e.g. ecopots) (Natural Environment and People community issue) and if residents would like to help maintain. Speak to Transition Dover to about support.	
B10		Work with DDC to minimise cutting of DDC or DTC owned grassed areas to maximise potential for pollinators and wild flora – Work to ban use of glyphosate weedkiller and use only wildlife friendly foamstream instead (As Hammersmith & Fulham + Lewes do)	

B11			Dover TC to compare its benchmarking carbon footprint exercise, conducted between 17 July 2019 and 6 Aug 2019, (using unnamed 'on-line tools' which showed 27 tonnes CO2e) with the assessment using Carbonfootprint.com of Congleton Town Council - (agenda papers for Congleton TC meeting 18 June 2015 pages 7 - 12 refer; these pages show 196.67 tonnes CO2 equivalent; current cost of using carbonfootprint.com is £270 incl VAT).
B12			Dover TC to use water butt(s) for rainwater harvesting from gutter for Town council offices' plant displays
B13			DTC to look to reinvest reserve funds (long term deposits) in funds that are divested from fossil fuels (to avoid the 'stranded asset' issue)
B14			Action to make the Town council carbon neutral by 2025 -2030 (with independent, externally-measured evidence put in public domain to support any claims about carbon neutrality.
B15		Protect schoolchildren from air pollution by working with Charlton Primary + Barton Rd Junior + Others to put in living walls (thick hedges) between the school and the road with free hedging from https://www.woodlandtrust.org.uk/plant-trees/schools-and-communities	
C PLACE - TRANSPORT			
C1	Faster, cheaper and more buses		
C2		Bike Hire Scheme	

C3	More safe cycle routes. A priority for a safe cycle route from Dover Priory Station to the fork with B 2011 where National Cycle route 17 runs along the Folkestone Road.		
C4	Reduce use of cars in town		
C5	Electric or hydrogen powered buses		
C6		Electric car charging points	
C7	Write to DDC and Stagecoach to ask if they will be trialling electric buses in Do-ver in the next 18 months (like they have in Canterbury)		
C8	Write to DDC and Stagecoach to ask about any possibility of a new bus station at York Street having solar panels on the roof to charge electric buses (addition to C6 already on ambition plan)		
C9	Write to DDC and Stagecoach about a survey to find out what additional routes / times there would be uptake for		
C10		Talk to providers of Car Clubs and look for spaces on the edges of Dover Town where residents would take up using car clubs (Example of Bristol)	
C11			Work with Destination Dover to encourage a local business to offer solar-powered boat trips for tourists around Dover Harbour (like the service La Rochelle has offered tourists for the last 10+ year
C12			Better signing towards safer cycle paths e.g. Sign to the Skylark Trail on the T junction of Woolcomber street and A20.
C13			Review + Improve provision of safe secure cycle parking in all wards.

C14			Promote car-free street events and car-free days
D PEOPLE - HEALTH AND WELL-BEING			
D1		Childhood obesity – cycling exercise programmes linking to safer cycle routes	
D2		Access to toilets in public areas	
D3		Increased availability of local produce	
D4		Farmers' and Growers' Markets	
D5		Practical support for increased access to health services particularly preventative programmes and support	
D6			Raise awareness of costs of non-attendance at NHS and social services appointments
D7			Support and promote access online to health and lifestyle advice and support
D8		Wellbeing Hub	
D9		Improve access to mental health support	

D10		More outdoor gym facilities	
D11	Improve Air Quality and lobby Port and DoE for action to reduce HGVs in town		
D12	Water filling station scheme		
D13	Reduction in negative impacts from motorised vehicles		
D14	Tackle child poverty		
D15		Community Venue in every ward to host events like AA and Narcotics Anonymous meetings as well as lunches for the older citizens	
D16		More Youth Clubs	
D17		Menopause Café/space	
D18	DTC to commit to supporting and publicising Walk to Work Day on April 2021 and the Big Pedal Challenge for schools April / May202		
D19	Write to Port of Dover and ask about making lorry / car parks non-idling zones		

D20	Write to DDC to point out that Dover has only 3 public toilets (Stembrook, Con-naught Park (Kearsney Abbey which is in a different parish) + the 4th in Maison Dieu gardens managed by Tersons, compared to the 7 in Deal and Walmer which has a smaller population than Dover Town.		
D21	Lobby for a doubling in the number of real, public toilets available to residents of, and visitors to, Dover (not just getting shops / cafes to allow public to use theirs on payment of fee). Locations where the public have suggested toilets are needed include: the Western end of the seafront (to replace toilets on the old pier) and the new St James retail area (inside M&S insufficient), near the Coombe valley junction with London Rd, Western Heights, Maxton allotment site, Elms Vale Rec. If we encourage people to walk more and use cars less, then public toilets are needed even more to prevent walkers being caught short, and worrying about being caught short.		
D22	Write to DDC Environmental protection (Brian Gibson) about creating a third Air Quality Monitoring Zone in Dover; along Barton Road from Barton Junior School, past Charlton School, past DGGS as far as the new Retirement Home (as young and old are especially vulnerable to the high air pollution levels measured here). A monitoring point is not the same as a monitoring zone.		

D23		Protect schoolchildren from air pollution by work-ing with Charlton Primary + Barton Rd Junior + Others to put in living walls (thick hedges) between the school and the road with free hedging from https:// www.woodlandtrust.org.uk/plant-trees/schools-and-communities	
D24		More young children's play areas + MUGAs for teenagers (for example in Max-ton nr Clarendon community centre, in Tower Hamlets) like the recently equipped St Radigund's play area; Ask DDC to support.	
D25			Put in more adult outdoor gyms e.g. in Connaught park, and elsewhere (e.g. using freshairfitness.co.uk)
D26			Refurbish public toilets by Co-innovate centre Stembrook, and the Connaught Park ones with DDC support
D27			Work with DDC to double the number of public toilets in Dover town so that it matches ratio of public toilet per head population in Deal/Walmer.
D28			Switch to meat-free catering for council events. (both for reasons of inclusivity regarding different faith-groups and to reduce carbon footprint)
E PEOPLE - OPPORTUNITIES			
E1		Increase visits by cruise and ferry passengers to town	
E2			Encourage aspirations
E3		Youth Hub in centre of town	

E4		Full time Youth worker	
E5		LGBTQ+ space at Dover SmART building	
F PEOPLE - COMMUNITY			
F1	Reinvigorate Neighbourhood Forums		
F2			Community noticeboards or use of shop windows to keep people informed
F3			More community engagement days
F4	Safer play areas for children		
F5	Better local theatre spaces		
F6	Work with Kent Community Energy (both A-Build environment + E-CI as this is most likely on new builds)		
F7	Invite Kent Community Energy to speak to Council about how they could encourage community owned renewable energy project on Business and larger (public) buildings in Dover; enquire if KCC energy team or KCE would provide DT Council with a map of potential (community owned) renewable energy generation, a scoping exercise.		
F8	Write to DDC to ask them to set up a Teracycle scheme for hard to recycle material		

F9		A pilot scheme with a group of households in older properties of similar construction to assess their heat loss (thermal cameras to be used in winter) and approach a retrofit company for a bulk discount quotation. (both a People + Built Environment issue)	
F10			Food poverty: Support existing Foodbanks and school holiday meals services in Dover, while making it clear that such initiatives are welcome whichever faith or non-faith group they are organised by (Christian of Anglican, Catholic, Evangelical or other denomination, Jewish, Muslim, Buddhist, Quaker or other or non-faith group). <i>Especially important with Covid Emergency</i>
F11			Support provision for victims of domestic abuse. .Explore the possibility of helping the One-stop shop at the Linces improve its outreach in the western wards of Dover town. <i>Especially important with Covid Emergency.</i>
